

Fast.

Accurate.

Greater comfort.

Fast placement. Fewer adjustments.

Conventional bracket placement can be tedious and time consuming. With eXceed, your brackets can be efficiently and comfortably placed in a fraction of the time. And more accurate bracket placement from the start means fewer adjustments and follow-up appointments.

Less time in braces. eXceed's precision bracket placement can significantly reduce the time you spend in braces. Why? Greater accuracy can mean quicker results.

Greater accuracy. eXceed software scientifically calculates the ideal position of the brackets on your teeth. Results are more predictable and consistent.

Powerful software calculates the ideal bracket position.

Bracket placement is fast and efficient.

eXceed is provided by

Great Lakes

ORTHODONTICS, LTD.

An Employee Owned Company

and your doctor.

Congratulations!

Your doctor uses eXceed computerized precision bracket placement solution. This advanced technology ensures your brackets are optimally placed on your teeth.

Enjoy

Fewer and shorter appointments.

Less time in braces.
